

## **5141.7 Sun Safety**

The Governing Board recognizes that overexposure to ultraviolet (UV) radiation from the sun and artificial sources such as sunlamps and tanning beds is linked to the development of skin cancer, eye damage, premature aging, and a weakened immune system and that children are particularly vulnerable to the effects of overexposure. The Board desires to support the prevention of excessive UV radiation exposure by students and to assist students in developing sun-safe habits to use throughout their lives.

Students shall be encouraged to take reasonable measures to protect their skin and eyes from overexposure to the sun while on campus, while attending school-sponsored activities, or while under the supervision and control of district employees.

To encourage and assist students to avoid overexposure to the sun when they are outdoors:

1. Students shall be allowed to wear sun-protective clothing, including, but not limited to, hats. (Education Code [35183.5](#))
2. Students shall be allowed to wear UV-protective sunglasses outdoors.
3. Students shall be allowed to use sunscreen during the school day without a physician's note or prescription. (Education Code [35183.5](#)) Students should not share sunscreens.
4. Students shall be allowed to use UV-protective lip balm. Students should not share lip balm.

Staff shall be encouraged to model recommended sun-safe behaviors, such as avoiding excessive sun exposure, using sunscreen, and wearing hats and other sun-protective clothing.

The Superintendent or designee shall inform school staff and parents/guardians of the district's sun safety measures and shall encourage parents/guardians to provide sunscreen, lip balm, hats, and other sun-protective clothing for their children to use at school. The Superintendent or designee also may provide information to parents/guardians about the risks of overexposure to UV radiation and preventive measures they may take to protect their children during nonschool hours.
