

## **6177 Summer Learning Programs**

The Governing Board recognizes that an extended break from the instructional program may result in significant learning loss, especially among disadvantaged and low-achieving students, and desires to provide opportunities during the summer for students to practice essential skills and make academic progress.

Summer programs offered by the district shall be aligned with the district's local control and accountability plan (LCAP), other applicable district and school plans, and the educational program provided during the school year. When feasible, summer programs shall blend high-quality academic instruction in core curricular and/or elective subjects with recreation, nutrition programs, social and emotional development, and support services that encourage attendance, student engagement in learning, and student wellness.

### **Summer School**

The Superintendent or designee, with Board approval, may establish summer school day and/or evening classes.

The district's summer school program may be used to provide supplemental instruction to students needing remediation and/or enrichment in core academic subjects.

As appropriate, priority for enrollment in summer school programs shall be given to district students who:

1. Need credit recovery to promote from intermediate school
2. Have been retained or are at risk of being retained at their grade level
3. Demonstrate academic deficiencies in core curriculum areas
4. Are in targeted student groups identified in the district's LCAP as needing increased or improved services to succeed in the educational program

Because summer courses cover extensive instructional content in a relatively short time period, consistent class attendance is crucial. Students who have more than three excused absences or one unexcused absence may not receive credit for their summer session class(es) unless they make-up missed work in accordance with law, Board policy and administrative regulation.

Sites for summer school programs may be rotated in an effort to make summer school programs more accessible to all students, regardless of residence or regular attendance area, and to accommodate the maintenance needs of district schools.

## **6177 Summer Learning Programs (continued)**

### **Additional Summer Learning Opportunities**

The Superintendent or designee may collaborate with parents/guardians, city and county agencies, community organizations, child care providers, and/or other interested persons to develop, implement, and build awareness of organized activities that support summer learning.

Strategies to support summer learning may include, but are not limited to:

1. Providing information to students and parents/guardians about summer reading programs scheduled to be conducted by public libraries or community organizations
2. Collaborating with the local parks and recreation agency and/or community organizations to provide day camps, sports programs, or other opportunities for physical education and activity
3. Collaborating with workforce development agencies, businesses, and community organizations to provide summer job training opportunities that include an academic component
4. Encouraging reading in the home, such as providing lists of recommended reading to students and parents/guardians, establishing a target number of books or pages, and providing prizes for achievement of reading goals
5. Assigning summer vacation homework in core curricular subject(s) for extra credit
6. Conducting occasional, interactive "fun days" during the summer to provide activities related to art, music, science, technology, mathematics, environmental science, multicultural education, debate, or other subjects
7. Arranging opportunities for community service
8. Programs offered through local education foundations.
